

5 Ways Your Kid Can Actually Use AI

No homework. No cheating. Just creating.

1 Invent Something Ridiculous

2 Make Someone Weird

3 Catch the AI (Fact Check!)

4 Create a Character

5 Find a Gift Idea

Big ideas can bounce anywhere!

Featuring

★ Jordan & Evelyn ★

More fun inside!

Hello, Creator

THIS BOOK IS ABOUT WHAT YOU MAKE.

You probably already know AI can answer questions. It can explain things. It can write things. It can make pictures.

But that isn't the interesting part.

The interesting part is what YOU can make with it.

NOT AN ANSWER MACHINE.

This little book is not about using AI to finish homework. It is not about asking AI to think for you. It is about using a new tool to make something that did not exist before.

A ridiculous invention. A new character. A comic. A game. A gift.

Maybe even a book.

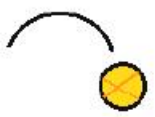

Jordan has been experimenting with AI, too.

Some experiments go well. Others involve very strange robots.

LET'S MAKE STUFF

Make it yours!

Bounce ideas!

Ideas + AI + You = Amazing Things!

First: AI Is a Tool

It helps you start!

Too vague:

Make me a cool robot.

That's not what I meant!

Better prompt:

Draw a friendly breakfast robot with 2 arms, 2 legs, and a spatula hand.

Be specific!

EVELYN ♥

AI **can't** see the picture in your head.

Better directions = better results.

Small prompts lead to big creations!

More fun ideas ahead!

You have the ideas!

Same ideas.
New adventures!

MY CREATOR SHEET

Big ideas start with you!

One page for all 5 activities!

1 Invent

What silly thing could exist?

2 Direct

What details matter most?

3 Check

What fact should I verify?

4 Character

Who is my strange hero?

5 Make

Who am I making this for?

Ideas can be gifts!

You are a creator!

Make it yours!

Same questions.
Infinite possibilities!

Create a brighter tomorrow!

Invent Something Ridiculous

BIG IDEAS START SILLY!

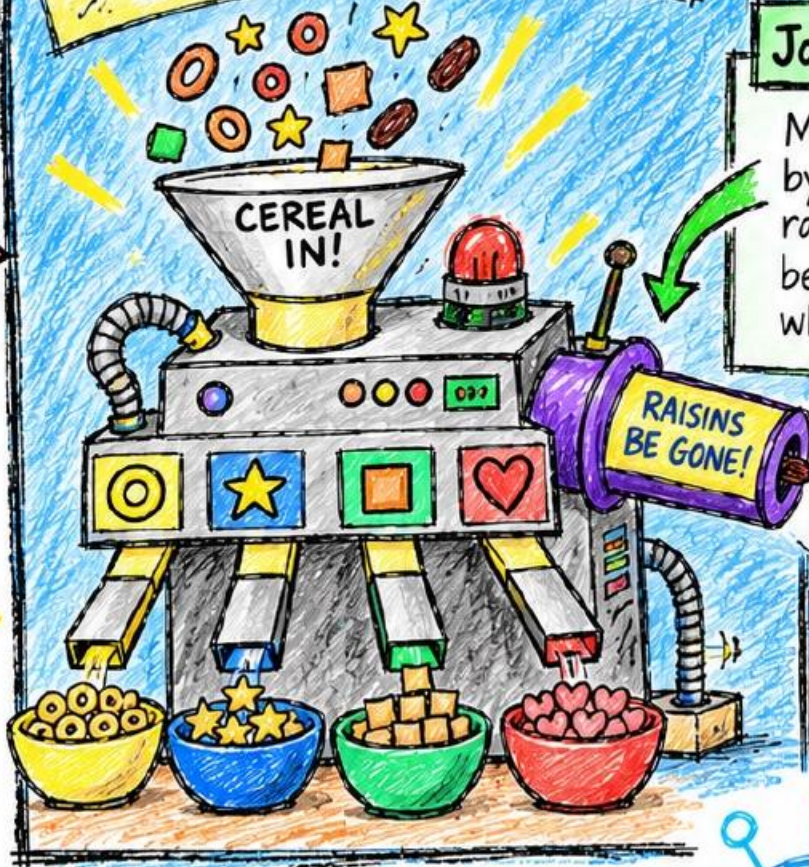

Silly ideas can lead to real solutions!

Ask AI:

Invent a machine that solves a tiny everyday problem in a ridiculous way.

What a great idea!
I want to make it even sillier!

The Cereal Sorter 3000

IMAGINE IT!
BUILD IT!
MAKE IT FUN!

Jordan made it better:

Make it sort cereal by shape and launch raisins out of the bowl because raisins know what they did.

Good creators don't stop
at the first idea.

Silly ideas can lead to surprising
and awesome solutions!

Creativity makes
everyday
things
more fun!

More
silly ideas
ahead!

Bounce
ideas!

Your Turn

CHANGE THE IDEA. DON'T JUST TAKE IT.

Ask AI to invent five ridiculous machines that solve tiny everyday problems. Then change the ideas. Combine two. Make one worse. Make one funnier. Add a feature AI never suggested.

ASK AI:

Invent five ridiculous machines that solve tiny everyday problems.

MY INVENTION:

What problem does it solve?

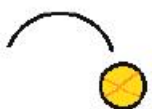

What ridiculous feature did I add?

TRY ONE: A sock-finder. A homework-refusing backpack. A fork designed only for macaroni and cheese.

MAKE IT SILLIER!

Make it yours!

CREATOR RULE

AI CAN GIVE YOU AN IDEA.

YOU DECIDE WHAT HAPPENS TO IT.

YOU GET THE LAST WORD.

Become the Art Director

BETTER PROMPTS = BETTER PICTURES

You have the ideas!

Too vague:

Draw a giant purple alien bug playing basketball on Mars.

Hmm...
That's a start,
but it's missing
details.

MAKE IT CLEAR!

Better prompt:

Draw **ONE** giant purple alien bug with **FOUR** legs and **TWO** arms, holding **ONE** orange basketball, standing on a dusty red Mars landscape. Make it funny, not scary.

Don't just say what it is.
Say what matters.

A better prompt gives the AI a clearer picture.

Clear ideas
create
amazing
things!

When you prompt, ask:

- 1 Who is it?
- 2 What is it doing?
- 3 Where is it?
- 4 What should it feel like?

Bounce ideas!

More imagination ahead!

Your Turn

DON'T SAY 'BETTER.' SAY WHAT BETTER MEANS.

Pick something you want AI to draw. Do not stop at "make me a dragon." Decide what matters.

1

Who is it?

2

What is it doing?

3

Where is it?

4

What should it feel like?

Generate the picture. Then find **THREE** things **YOU** would change.

1

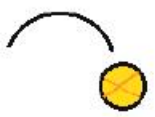

2

3

DIRECT IT!

Make it yours!

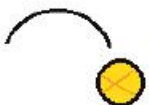

2

CREATOR RULE

'MAKE IT BETTER' IS NOT DIRECTION.

TELL AI WHAT BETTER MEANS.

BE SPECIFIC!

Catch the AI

Be curious!
Ask questions!
You got this!

Curious minds
make a
brighter world!

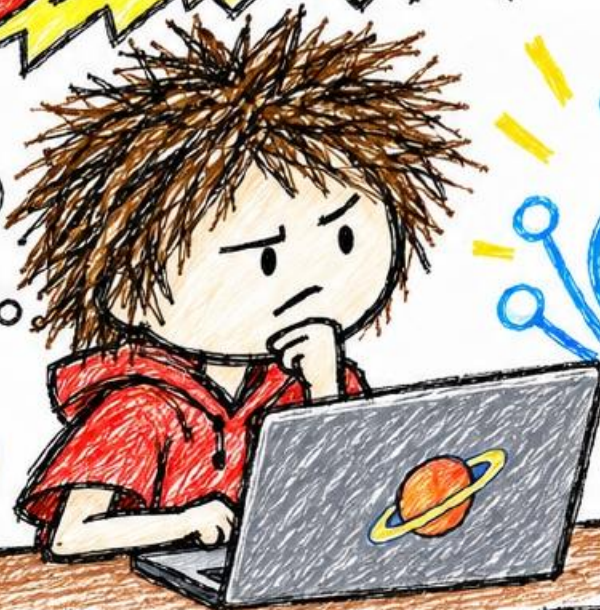

BAM! FACT CHECK!

Same
question.
A clearer
answer!

That
sounds right...
but I should
check!

I can sound
sure even
when I'm
wrong.

AI can be
amazing!
And it still
makes
mistakes.

AI said:

"Mars has two moons."

Let's
check
it!

Jordan checked:

TRUE — Mars has two
moons: Phobos and Deimos.

Phobos

Deimos

Real
facts
help us
see the
bigger
picture!

When should you check?

- 1 Facts for school
- 2 Facts in a story
- 3 Anything important

Check
it out!
It's a
super
skill!

Confident does **NOT** mean correct.

Always pause. Always check.
Better questions = a brighter you!

Surprise!
Sometimes
AI is wrong!

Your Turn

CATCH THE AI BEFORE IT FOOLS YOU.

Ask AI for three surprising facts about space, animals, dinosaurs, or another subject you like. Look each one up somewhere trustworthy.

1

FACT 1

☐ TRUE ☐ FALSE ☐ I NEED MORE INFORMATION

2

FACT 2

☐ TRUE ☐ FALSE ☐ I NEED MORE INFORMATION

3

FACT 3

☐ TRUE ☐ FALSE ☐ I NEED MORE INFORMATION

DID YOU CATCH A MISTAKE? GOOD!

You thought instead of automatically believing the screen.

Make it yours!

Create a Character

POW! MAKE SOMEONE WEIRD!

Imagination has no rules!

Bounce ideas!

Ask AI:

Give me 10 strange superhero ideas.
Make them funny and different.

Silly ideas can turn into amazing stories!

CAPTAIN BEDTIME

FIGHTS BAD DREAMS!

Jordan kept the best part:

A hero who makes people sleepy – then I changed the costume, powers, and villain.

I can make this even weirder!

You don't need the final answer.
You need a starting spark.

Clear ideas create amazing characters!

MY IDEAS:

- new costume?
- silly powers?
- funny villain?
- what do they do?
- where do they live?

CAPTAIN BEDTIME IDEAS:

More weird ideas ahead!

Your Turn

KEEP THE SPARK. CHANGE EVERYTHING ELSE.

Ask AI for ten strange superhero ideas. Find one that makes you react. Then change it until it feels like yours.

NAME:

POWER:

BIGGEST WEAKNESS:

WHAT DO THEY WANT?

WHAT MAKES THEM DIFFERENT?

THEN ASK FOR:

A villain, sidekick, headquarters, or ridiculous vehicle. Keep only the ideas worth keeping.

4

CREATOR RULE

DON'T ASK AI TO BE CREATIVE FOR YOU.

BE CREATIVE WITH IT.

MAKE IT YOURS!

Make Something for Someone Else

WOW! TURN IDEAS INTO GIFTS!

It feels great
to make
someone smile!

Ask AI:

Help me make
a funny birthday
story about
Grandpa and
his dog.

I can
make a story,
a card, a picture
or a coupon!

FOR GRANDPA!

A Very Silly Adventure
By Me! ❤️

Jordan made it better:

I added Grandpa's
fishing hat and Max
stealing sandwiches.

My ideas
made it special
for MY Grandpa!

Your
ideas make
it unique
and special!

AI doesn't know
your people.

YOU do.

EVELYN ❤️

Kind
ideas
make
a happier
world!

More
happy
ideas
ahead!

Personal ideas
make the best gifts!

Bounce
ideas!

Bonus Challenge: Can AI Help You Make a Book?

Jordan eventually asked the bigger question. If AI can help with ideas, words, and pictures, could it make a whole book?

YES - BUT YOU ARE STILL THE CREATOR.

- Generate ideas.
- Delete ideas.
- Change characters.
- Fix pictures.
- Check facts.
- Rewrite jokes.
- Ask someone to read it.
- Change it again.
- Decide when it is finished.

WHAT CAN I MAKE WITH AI?

KEEP THESE

The Creator Rules

SEVEN RULES. JORDAN SAYS HE'S THE EDITOR.

- 1 Have your own idea.
- 2 Do not keep everything AI gives you.
- 3 Tell it what matters.
- 4 Check important facts.
- 5 Change things until they feel like yours.
- 6 You are responsible for what you create.
- 7 Delete boring stuff.

Evelyn: "That makes seven."

Jordan: "I'm the editor."

Make it yours!

A Note for Grown-Ups

THE LEARNING IS IN THE DECISIONS.

Children are going to encounter AI. The goal of this guide is not to convince them that AI should do their thinking for them. It is almost the opposite.

Used passively, AI can become an answer machine. Used creatively, it can become a sketchbook, brainstorming partner, prototyping tool, writing assistant, art tool, and starting point.

Encourage kids to question outputs. Ask why they kept one idea and rejected another. Let them catch mistakes. Let them change the prompt. Let them decide when something is funny, useful, strange, or finished.

Those decisions are where the real learning happens.

THE BEST QUESTION MAY NOT BE:

"What can AI do for my child?"

It may be: "What can my child learn to create with AI?"

Yes, AI Helped Make This Book

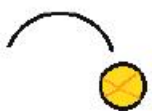

THAT IS PART OF THE POINT.

AI was used during the creation of this book. It helped brainstorm, revise words, and create artwork. Sometimes it produced things that were strange, wrong, boring, or unusable.

A HUMAN CHOSE WHAT STAYED.
A HUMAN CHECKED THE WORK.
A HUMAN DIRECTED THE FINAL BOOK.

That is not something we are hiding. It is part of the point.

TOOLS DON'T DECIDE. PEOPLE DO.

Your Turn Starts Here

MAKE SOMETHING THAT DID NOT EXIST TEN MINUTES AGO.

Jordan's experiments continue in the Jordan Asks series.

WHY DIDN'T THE AI DO WHAT I SAID?

Jordan learns why asking for a "cool robot" is not as simple as it sounds.

CAN AI MAKE THIS BOOK?

Jordan takes the next step: instead of asking AI for an answer, he tries to create something with it.

YOUR TURN.

Open an AI tool with your grown-up.

Do not ask it to do your homework.

Ask it to help you make something that did not exist ten minutes ago.

THEN MAKE IT BETTER.
